Why work with me

My goal is to help you define who you are and what your spiritual mission is here on Earth. I believe we all have a unique and powerful inner destiny. By discovering it and removing any blocks that prevent you from moving forward into your “truest” self, you can unleash ALL of your hidden power and step into the authentic life you’ve always dreamed of, but never knew how to create.

My gift I’d like to give to you is inner clarity, to know YOURSELF better than anyone else could know you, and to create a tangible, evidence-based roadmap to stepping into the life of your dreams. I’m here to be your personal guide to inner exploration and transformation!

Discover your truth and align with your destiny

I work with three practices that can be integrated or individualized to suit your needs. These 3 practices have dramatically changed my life and have been my area of expertise and mastery over the last several years. You’ll gain a newfound sense of clarity regarding your unique life purpose, a renewed sense of wellbeing in your physical and emotional health, and greater sense of connection to your personal spirit guides, as well as techniques to access their guidance for the rest of your life.

Why it can change your life

Birth Chart Deep Dive Single Session | ~45 minutes @ \$100.00 (Pre-recorded video)

Send up to 3 questions or areas of focus that you'd like clarity around. Depending on the guidance coming through, I will answer as best as I can. Requires **exact birth time, date, and location** for best results.

This includes the types of people you'll interact with, the experiences you'll have, the lessons you'll learn, and of course any challenges you may face within that. We'll also explore the greatest possibilities of your life purpose, talk about relationships/compatibility and love, areas you may need to heal and/or work through in this life, and of course your greatest gifts that you're bringing into the world. This reading is like opening up the "instruction manual" for your life. Once you understand who you are and what you're meant to be doing and learning, life will never be the same, and you will be empowered to take charge of your own destiny and live/create your greatest life.

You get a much deeper understanding of the context of your life now as well as where you're at in your evolutionary progression and everything else life has in store for you. This is designed to both answer any questions you have and allow your guides, and my guides, to give their wisdom and insight into your life to help steer you in the right direction!

Video sent straight to your email. Readings may go up to 10 minutes longer or shorter however you are guaranteed a minimum of 50 minutes.

"Brandon is incredible at what he does! He was very detailed, kind, and insightful. What I found most remarkable about his talent was his ability to identify specific details about my gifts without prior knowledge of my lifestyle.

Brandon mentioned that if I took a corporate role path, I would be quickly promoted. However, my chart indicated that I would likely transition to a training or leadership role that would allow me to utilize my natural teaching abilities. Days later, I was offered a role in training and development.

If you are looking for a unique way to discover untapped career potential, curious about your purpose, or interested in hiring a great motivational speaker, you can't go wrong booking Brandon."

"The reading that Brandon channeled connected me back to a place of clarity, it encouraged me to trust my intuition. Deep down I really did know the answer, it was a matter of trusting it because it was asking me to grow. To grow into a place of increased self-worth, self-respect, and self-confidence.

I'm so incredibly grateful to Brandon for the bridge that he created between me and my Higher Self. The impact this reading had on my life, it almost can't be put into words — trusting ourselves, our Inner Wisdom, with big decisions is everything and this reading helped me to remember just how right on my intuition really is!"
